Note that both the turbine filter and the T75G pressure tubes are consumables that will wear out, so it's best to keep extras on hand.

The whip hose makes it much easier to spray in tight spaces such as bookshelves or inside a cabinet.

The gravity spray gun stand keeps the spray gun handy at whatever place you choose, so you can keep the turbine further away to minimize heat where you're spraying.

Extra air caps make for smoother results with thinner or thicker coatings. Package 8 includes the full set of T70 air caps plus a protective case for them.
