

## Fuji Spray Q5 GXPC Packages

Each package includes the system, gravity spray gun with an air cap, plus bonus items from me and from Fuji Spray. (Base price \$1,669.00)

Note that the Fuji Spray Q5 bonus items from Fuji Spray include an extra filter and an ultra-flexible 6-foot whip hose, so they're automatically included in every Q5 package.

Note that both the turbine filter and the GXPC cup parts are consumables that will wear out, so it's best to keep extras on hand.

The whip hose makes it much easier to spray in tight spaces such as bookshelves or inside a cabinet.

Extra air caps make for smoother results with thinner or thicker coatings. Packages 6, 7, and 8 include the full set of GXPC air caps plus a protective case for them.

The GXPC quart cup with its swivel-L fitting makes it easier to spray large areas, rotating the cup as needed to spray in any direction.

The 2-quart pressure pot makes it even easier to spray even larger surfaces, and takes the weight of the fluid off the user's hand. (The optional one-gallon pressure pot is available separately – not included in any of the packages.)
