Note that both the turbine filters and the T70 cup parts are consumables that will wear out, so it's best to keep extras on hand.

The whip hose makes it much easier to spray in tight spaces such as bookshelves or inside a cabinet.

Extra air caps make for smoother results with thinner or thicker coatings. Help Choosing an Air Cap Size. Packages 7 and 8 include the full set of T70 air caps plus a protective case for them.

The set of 6 mini-cups included in Packages 7 and 8 makes it easier to spray and store smaller amounts of fluid.

The 2-quart pressure pot included in Package 8 makes it easier to spray large surfaces, and takes the weight of the fluid off your hand. (A one-gallon pressure pot is also available separately; it's not included in any of the packages.)
